**Comments:**

All equipment should be prepared with safety rules and have appropriate certificates (ready for inspection) which conform musicians, technicians and backline safety.

The light desk should be in front of the stage, on its axis, so that the producer could see the light freely scene and lighting.

Equipment should be fully operational and have lamps in good condition with a similar time illumination. Permitted to use substitutes, you only agree on changes to the LD.

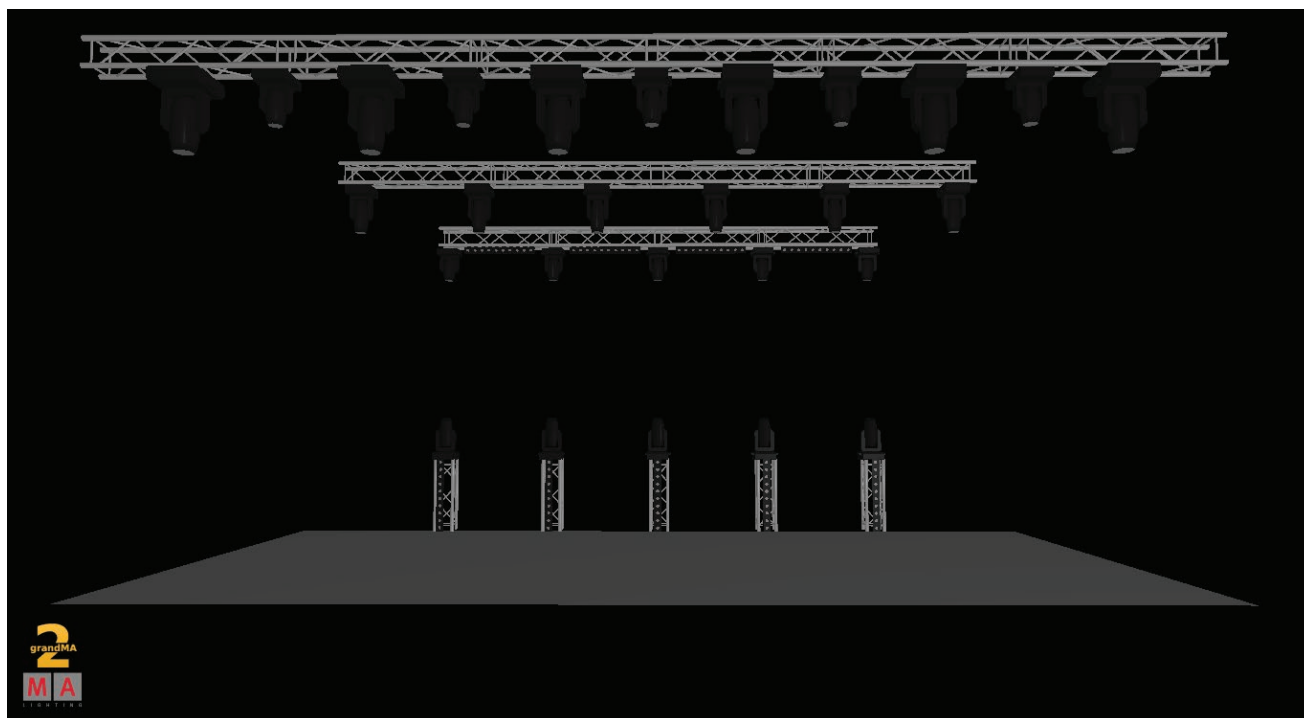

All PAR LED and black fan will be carefully placed by LD after arrival team.
